• **The iPOS 6000, cool design, hot value**

Today's dynamic retail market demands innovative point-of-sale (POS) solutions that incorporate the latest technologies while providing outstanding value for your business. The iPOS 6000 is reshaping point of sale systems with a breakthrough design that delivers an exceptional combination of performance, reliability and energy efficiency, all at an incredibly affordable price.

• **Innovative compact design**

The iPOS 6000 breaks away from traditional POS designs with a sleek, modern look that complements today's retail formats. Forty percent smaller than others, the iPOS 6000 features the smallest form factor in its class. The space-saving design enables versatile configuration options, conserving valuable checkout space. You will not have a screen blocking your direct view to the customer, making it a much friendlier conversation and transaction.

• **High reliability**

The iPOS 6000 features a rugged cabinet with a revolutionary thermal cooling solution that enables fanless operation for increased reliability. The iPOS 6000 is also engineered for efficient serviceability. The EZ-Open hinged cabinet provides easy access for quick repairs and upgrades.

• **Exceptional energy efficiency**

Featuring the best energy efficiency in its class, the iPOS 6000 is 68 percent more energy efficient than similar terminals. The iPOS 6000 has earned the distinguished ENERGY STAR® qualification to help your bottom line and the environment.

• **Superior value**

The iPOS 6000 is an affordable, retail-ready solution that provides outstanding value for any size retailer. It provides flexible connectivity options to power your peripherals as well as dual display support for consumer-facing advertising and messaging. Built to last, the iPOS 6000 is designed to maximize your POS investment and deliver a low total cost of ownership.
